Audio
The Movie

An Exciting Journey Through The World Of
Audio...Without The Math!

Finally, a DVD that gets you up to speed on "everything audio." **Audio: The Movie** is a 2-hour video that takes you through real world audio, dB measurements, frequency domain issues, amplitude, sample rate and bit rates as well as applying your new found knowledge in your everyday audio endeavors. Most importantly, this information is provided in easy to understand terms and without the math. If you thought of yourself as an expert on sound, be prepared for a few curve balls; if you're new to this... Step right up! It's fun, light-hearted and makes complex technical information easy to understand. Only \$39

"Where aficionados talk audio"

Prepare To Be Amazed!

The new ZVOX 325 single-cabinet surround system. Unbelievably great sound, without the complications.

We have never heard a single-cabinet audio system that sounds as good as the new ZVOX 325. Created by renowned speaker designer Winslow Burhoe (founder of EPI), it uses a sophisticated amplifier, our PhaseCue™ virtual surround system and an incredible built-in powered subwoofer to create remarkable, room-filling sound. All from a single cabinet as wide as a typical DVD player. With only one connecting wire, and a one-page "owner's manual," the 325 is a miracle of simplicity. It's the ideal way to add great sound to a flat-panel TV. No other audio company has gotten more rave reviews in the last two years. Find out why—try a ZVOX 325 in your own home for 30 days, with virtually no risk. You will—we guarantee—be amazed.
